

PHILSUTECH

February 15, 2016

Attention: PLANTERS, FARMERS & MILLERS

As one of the major undertakings of the Agriculture & Farm Engineering Division for FY 2015-2016, the annual Educational Farm Tour will be held this coming March 15 & 16, 2016 in Southern and Northern Negros.

In this regard, we are inviting you and your Association members to join in the Farm Tour. We have identified few of the progressive and productive farms to share with us their farm management and cultural practices. (please see attached itinerary)

The participation of Tractorco in their farm equipment and machinery demonstration will also help us in our problems the scarcity of farm workers besetting the sugar industry. There will be actual field demonstration of other machinery suppliers and agricultural chemical products in terms of fertilization and cultivation.

In order to defray the cost of this undertaking, we will be charging each participant the amount of Three Thousand Five Hundred Pesos only (P3,500.00) to cover the cost of meals, transportation during the tour, cap/hat and hand outs for two days.

In as much as we have limited time, we will be limiting to 50 participants only. Therefore, may we request you to confirm your participation soonest possible time. Deadline is on March 1, 2016. Kindly contact PHILSUTECH Secretariat or VP & Directors Roberto Belleza and Bon Eng Te of Agriculture and Farm Engineering Division.

Thank you for your invaluable support in making this project possible which will be very beneficial to both the millers and planters as well as to the whole sugar industry.

Very truly yours,

MARIO G. PALMA
President

PHILIPPINE SUGAR TECHNOLOGISTS ASSOCIATION, INC.
